Have you tried the Microsoft InfoPath 2010/2013? If you have spent a lot of time adjusting yourself to the Ribbon interface of Microsoft InfoPath 2010/2013, or being frustrated by searches for new features on the Ribbon interface, here is a solution to save your time for the transition, Classic Menu for Microsoft InfoPath 2010 and 2013.

Classic Menu for InfoPath 2010 and 2013, an Office add-in designed for Microsoft InfoPath 2010, brings the menus and toolbars of office 2003 and 2007 into the Ribbon of Microsoft InfoPath 2010, adds a "Menus" tab at the far left of the menu bar and allows you to work with InfoPath 2010 as if it were InfoPath 2003/2007.

All classic menu items of InfoPath 2003 are well displayed as a group in the tool bar of the Ribbon, while all new features and commands of Microsoft InfoPath 2010 are added to the classic style interface.

The software allows you to work with InfoPath 2010 as if it were InfoPath 2003. It shows the familiar classic menus and toolbars on the ribbon in Microsoft InfoPath 2010. If you were using InfoPath 2003 before, you don't need any trainings or tutorials after upgrading to Microsoft InfoPath 2010 with this add-in now.

The software supports all languages that are supported by Microsoft InfoPath 2010: English, French, German, Italian,

Spanish, Portuguese, Japanese, Dutch, Chinese, and more. It automatically shows the menus and toolbars in the language of your Microsoft Office 2010.

Fully compatible with Windows 7, Windows 7 x64, Vista, Vista x64, XP, XP x64, Windows 2003 Server and 2008 Server.

You can enable or disable the classic menu and toolbar in an easy way. And the Classic Menu Manage center can help you quickly configure the setting.

Easy install and uninstall.

Easy to show or hide tabs of Ribbon.

The InfoPath 2007 build-in tabs and groups on the ribbon are available at all times.

The Classic Menu for Microsoft InfoPath 2010 is very stable and strong.
